

STAAR End-of-Course
2014 Test Administrations

**Reporting Student
Data File Format**

Overview

All STAAR, STAAR L, STAAR Modified, and STAAR Alternate data for end-of-course (EOC) assessments will be reported on the same data file (STAAR Modified and STAAR Alternate are only administered during the spring administration). There will be one record on the data file for each subject for which a student is assessed. Following is a list of the most significant changes being implemented in 2014.

- 1. Texas Student Data System (TSDS) Unique Student ID:** The TSDS student ID is now provided through the Public Education Information System (PEIMS). The TSDS student ID will be placed on the student data file if a match can be made to the PEIMS file. See positions 191–200.
- 2. Removal of Subjects:** The current subjects required for STAAR EOC assessments are Algebra I, biology, English I, English II, and U.S. history. All other subjects have been eliminated from the data file format. See position 201 for the applicable EOC codes.
- 3. Substitute Assessment:** A field was added to the answer documents and online for districts to indicate if a student is not testing because the student took a substitute assessment and met the requirements for that substitute assessment to count as the graduation requirement for the EOC subject. See position 232.
- 4. Accommodations:** The type of accommodation information that is being collected in 2014 has been changed. See positions 252–257.
- 5. Score Code Default:** A new value (3) for the score code default has been added. The score code will be defaulted to an ‘O’ and the score code default set to ‘3’ if the student has previously passed the assessment for the subject. See position 296.
- 6. First-Time Tester/Retester:** A flag has been added to indicate when a student is testing for the first time or if the student is retesting for the associated subject. See position 307.
- 7. English I and II:** English I and II are no longer split into reading and writing tests, resulting in changes to the blue print for the assessment. See page 12 for information about the blue print and positions 365–366 for information about how the raw score for English I and II is calculated.
- 8. Student’s Passing Standard:** Previously there was going to be one Level II standard for each student by content area within EOC (English, mathematics, social studies, and science). Each student will now have one standard for all subjects. That passing standard will be determined by the school-year that a student takes his or her first EOC test. See position 387.
- 9. Student Performance Standards and Performance Level Results:** Some performance standards and performance level results have been removed due to some subjects no longer being assessed and due to the removal of the minimum score. See positions 388–399.
- 10. STAAR Progress Measure and ELL Progress Measure Information:** The STAAR and ELL Progress Measures and associated fields have been added for the applicable subjects and test versions, including data that is used to determine the progress measures. See positions 400–422.

STAAR END-OF-COURSE REPORTING STUDENT DATA FILE FORMAT

- 11. Cumulative History:** Cumulative history information, showing the results for all five tests required for graduation, is being added to the student data file because a separate cumulative history file will no longer be generated. See positions 801–941.
- 12. Foreign Exchange Student:** The Foreign Exchange Student field was removed from the file format because the information is no longer used. This field was previously in position 165.

Attention For Users of Tab-delimited Files

If you ordered a tab-delimited file, a delimiter has been placed after each data field in the file (Hex = 09). For example, the first data field, Administration Date, has a field length of 4 and is followed by a delimiter in position 5. Therefore, the data for Grade-Level-Code begins in position 6 rather than position 5 as shown in the data file format.

RAW SCORE

The STAAR, STAAR L, and STAAR Modified raw score for mathematics, science, and social studies assessments is the total number of items the student answered correctly.

The STAAR raw score for English I and II is calculated by adding the number of multiple-choice items answered correctly, the weighted short-answer scores (weighted by three) and the weighted written composition score (weighted by three). {Number of multiple-choice items + (single selection short-answer score * 3) + (paired selections short-answer score * 3) + (written composition score * 3)}.

If a student has 41 of the 50 multiple-choice items correct, a score of 2 on the single selection short-answer item, a score of 3 on the paired selection short-answer item, and a score of 6 on the written composition, the student’s total raw score will be 74 out of 92 possible raw score points {41 + (2 * 3) + (3 * 3) + (6 * 3)}.

The STAAR Modified raw score for English I and II is calculated by adding the number of multiple-choice items answered correctly and the weighted written composition score (weighted by two). {Number of multiple-choice items + (written composition score * 2)}.

If a student has 32 of the 40 multiple-choice items correct and a score of 4 on the written composition, the student’s total raw score will be 40 out of 52 possible raw score points {32 + (4 * 2)}.

A single passing standard is used for all subjects and is set depending on when a student first takes any of the EOC tests required for graduation. Students that first test in EOC prior to the 2014–2015 school year will have the Phase-In 1 passing standard for all subjects. The Phase-In 2 and the Recommended passing standards will be implemented in the future. The Level II passing standard is not applicable for STAAR Alternate.

431-498	68	<p>ITEM REPORTING CATEGORY NUMBERS</p> <p>The number in each field indicates the reporting category measured by the corresponding item. For example, the value in the first field, position 431, indicates the reporting category measured by item 1. The second field, position 432, indicates the reporting category measured by item 2, and so on.</p>	
---------	----	--	--

Note: The reporting category numbers will not be populated for all STAAR L and braille version tests. The item reporting category numbers will only be provided for the spring administration.

499-566	68	<p>ITEM STUDENT RESPONSES</p> <p>The character in each field indicates the student’s response to the corresponding item. The student’s response to item 1 is in the first field, the student’s response to item 2 is in the second field, and so on. Correct responses are indicated by a plus sign (+); an alpha character (A–D or F–J) indicates an incorrect response; and an asterisk (*) indicates that the response was left blank or multiple values were gridded. Note: for any open-ended griddable items, B = incorrect response.</p>

STAAR EOC ALTERNATE INFORMATION

701-704	4	<p>REPORTING CATEGORY ASSESSED One digit indicator noting which reporting categories were assessed.</p>
705-708	4	<p>LEVEL OF COMPLEXITY Level of Complexity is a designation assigned to each assessment task based on the complexity of the task.</p> <p>3 = Level 3 assessment tasks are the most complex and involve applying knowledge beyond basic recall.</p> <p>2 = Level 2 assessment tasks are moderately complex and involve recalling information at a basic level.</p> <p>1 = Level 1 assessment tasks are the least complex and involve responding to knowledge at the beginning awareness level.</p> <p>+ = Partial Score Blank = Level of Complexity was not selected</p>
709-720	12	<p>DEMONSTRATION OF SKILL SCORES Demonstration of Skill indicates the score points for student performance based on how many of the predetermined criteria the student successfully demonstrated for each assessment task. The student's Demonstration of Skill score for each essence statement is weighted according to the complexity level of the assessment task. Level 3 assessment tasks receive the highest numerical weighting and the Level 1 assessment tasks receive the lowest.</p> <p>The weighted Demonstration of Skill score will range from 0.0 to 9.0. If the essence statement was a Partial Score, a "+" will be present. If the Demonstration of Skill was not entered, a "-" will be present. The Demonstration of Skill will be blank if not assessed or no response observed.</p>
721-724	4	<p>LEVEL OF SUPPORT SCORES Level of Support indicates the score points for student performance based on whether the student demonstrated the predetermined criteria for each assessment task independently, with cueing or with prompting.</p> <p>The Level of Support score will range from 0 to 6. If the essence statement was a Partial Score, a "+" will be present. If the Level of Support was not entered, a "-" will be present. The Level of Support will be blank if not assessed or no response observed.</p>
725-728	4	<p>GENERALIZATION OF SKILL SCORES Generalization of Skill indicates the score points for student performance based on whether the student successfully completed the three predetermined criteria for each assessment task in a different context (environment, personnel, or materials). Only students accessing Level 2 or 3 assessment tasks who demonstrate the predetermined criteria successfully without prompting for the primary observation are eligible for generalization.</p> <p>If the essence statement was not eligible for Generalization, an "N" will be present. If the essence statement was a Partial Score, a "+" will be present. The Generalization of Skill score will range from 0 to 6. If the student was eligible for Generalization but the Generalization of Skill was not entered, a "-" will be present. The Generalization of Skill will be blank if not assessed or no response observed.</p>

STAAR EOC CUMULATIVE HISTORY

The cumulative history data provided is from the administration with the highest scale score (where the score code is an “S”) or, if the student has not passed, the result from the last time a document was submitted for the subject. Because students taking STAAR Modified or STAAR Alternate are required to meet the requirements set by the Admissions, Review, and Dismissal (ARD) committee, STAAR Modified and STAAR Alternate results are not included in the cumulative history section.

English I

Prior to spring 2014 English I was composed of English I reading and English I writing and results were reported separately. For purposes of cumulative history reporting, student results prior to spring 2014 for English I have been reviewed to determine if a student met the graduation requirements under the rules in place prior to spring 2014.

For English I those requirements are: a scale score in reading of 1813 or higher, a scale score in writing of 1798 or higher, and a combined reading and writing scale score of 3750 or higher. If those requirements are met, a value of '1' will be present for Level II. If the student achieved Level III in both reading and writing then a value of '1' will be present for Level III. The scale score value will be the sum of the English I reading scale score and the English I writing scale score. If the student has not yet met the graduation requirement and has not tested after 2013, the scale score will be blank.
