	NURS 4212 Informatics in Health Care	2	
	^ Minimum semester hours (sh) to complete degree	120	

If a student successfully completes the core curriculum at an institution of higher education, that block of courses may be transferred to any other institution of higher education and must be substituted for the receiving institution's core curriculum. A student shall receive academic credit for each of the courses transferred and may not be required to take additional core curriculum courses at the receiving institution unless the Texas Higher Education Coordinating Board has approved a larger core curriculum at that institution.

All program course work must be completed to satisfy RN to BSN program requirements.
