

UNIVERSITY of  
**HOUSTON**

STUDENT GOVERNMENT ASSOCIATION

FISCAL YEAR 2018 BASE AUGMENTATION REQUEST

SGA is requesting a decrease of \$3,700 to our base budget. This represents 10% of our controllable budget.

We hope that other units will voluntarily follow the precedent that SGA has set in two consecutive years; **every** unit has the capability to make their budget more efficient. We also hope that SFAC will look for opportunities to make small cuts across all units in order to encourage that efficiency.

We believe that the current level of student fee funding across units is unsustainable and that reductions of units' budgets are inevitable to avoid significant raises to the student fees.

Together, we can create a culture change where increases in the student fee are not a constant reality and students still have access to valuable resources.
