CHILDREN'S LEARNING CENTERS

UH Children's Learning Centers

SFAC FY2026 One Time Request

FY2026 One Time Funding Request	
Student parent child care tuition assistance	\$172,800.00
Total-	\$172,800.00

The UH Children's Learning Centers (CLC) is requesting \$172,800.00 in FY2026, if not funded in the FY2026 Base Augmentation request, to support:

- 25 additional eligible low-income student parents per semester (48 weeks) at a 50-70 percent reduction in costs. Below is a chart illustrating the weekly cost of child care for student parents with the reduction in costs.

Weekly Child Care Tuition Costs 2024-2025				
Full-Time Care	Student Rate	50% Reduction	60% Reduction	70% Reduction
Infant Room	\$290	\$145	\$116	\$87
Toddler Rooms	\$240	\$120	\$96	\$72
Pre-K Rooms	\$200	\$100	\$80	\$60

CLC's tuition assistance program has steadily increased post-COVID.

- In FY23, CLC provided approximately 20 awards per semester totaling \$109,600.00.
- In FY24, CLC provided approximately 35 awards per semester totaling \$167,000.00.
- In FY25, CLC provided 41 fall awards totaling \$92,000 with a projection of \$250,000.00 for the year.

The financial need has increased over the years and families are receiving a higher percentage of discounts. Student parents struggle with paying for quality child care while also pursuing a degree fulltime. It leaves little time for a fulltime job, resulting in decreased income as one CLC parent explains:

"I have so many stories of the many times I thought it was the end of my education journey but somehow, I found a way. One of those ways has been the SFAC tuition assistance and the UH Children's Learning Centers. The SFAC tuition assistance has allowed me to focus more on my studies and be able to afford childcare for my son. As a newly, young, and low-income mother, I thought going back to school was not an option for me. However, I was wrong, and I am glad I was. Without the SFAC tuition assistance, I would have to look for a full-time job position to cover my son's childcare then have to quit school to show up to the job. The SFAC is literally a big part of why I am able to be a full-time student. M.C. (Excerpt from SFAC application essay)

An article from *Education Trust*, stated that a student parent would need to work anywhere from 30 to 90 hours per week, on average, to cover child care and tuition costs at a public college or university in the

U.S. (1). Providing student parents with the opportunity to afford an accessible, quality early learning program for their children often results in life changing experiences for the entire family. With SFAC's increased support, more student parents will be able to spend additional time focused on their own studies while their children build a strong foundation for learning at CLC.
