FY 26**

FY26 Request - Web Team Travel Budget

We'd like to request funding for traveling to music festivals during the FY26 period. Music events are specifically useful to Coog Radio members because it has conferences and networking opportunities, a benefit to students who wish to pursue media based journalism. Some of our most popular articles have been either covering or promoting upcoming events - specifically festivals. These music festivals aim to increase viewership on the Coog Radio website, network with upcoming artists, and access connections with media professionals. Students will be able to grow journalism skills in a fast-paced setting, team building, and networking with other writers in the industry. SXSW and ACL remains of high importance, other funding will be made available for potential festivals listed below.
