F. FY26 One-Time Request - Music Director Stipend

We'd like to request a stipend for the Music Director. The Music Director is in charge of searching for new music, keeping the directory updated with the best songs our listeners want to hear. Additionally, they are in charge of searching for local artists, in surrounding communities and campus, to feature their music on our radio stream. This fall the music director has provided a collaboration with our sister organization Coog Tv, provided more social media coverage via tik toks, and created a music team from scratch. The stipend will help them maintain their success and expand the music team's potential.
