

FY 2026 One-Time Request – Equipment

# The Cougar

News on the Daily

Equipment: \$5,300.00

As more students decide to join The Cougar, we need to increase our equipment to keep up with the demand. With this request, we want to give students more opportunities to get involved with the organization and improve their skills throughout their undergraduate careers, specifically within photojournalism.

Photojournalism is an essential part of a newspaper that is underlooked, and we want to invest in the section so that it can continue to capture the life of the University of Houston. In The Cougar archives, the photos taken by our photographers are featured in other publications that capture the history of our university. With that in mind, we would like to request funding for camera equipment.

**Equipment Budget: \$5,000.00**

**UH Administrative Charge (6.0%): \$300.00**

- **Total: \$5,300.00**
